WELCOME TO ENERGYLIVE

ABOUT THE PLATFORM

EnergyLive is a subscription web platform that gives a simple, fast overview of European power markets. Every day it collects, processes and analyses market data from exchanges across Europe and presents it in clear maps, tables and charts, so that you can make informed decisions without collecting data yourself.

27

European power markets, incl.
Italian zones

15'

15-minute and hourly day-
ahead market results

EUA TTF

Latest EUA and Dutch TTF
closing prices from ICE

API

* Historical data of the Italian power market are published by GME, which requires each subscriber to sign its own data licence agreement. The licence is invoiced directly by GME and is not included in the EnergyLive subscription. Full plan subscribers without a GME licence have access to historical data for all other markets.

BASIC PLAN

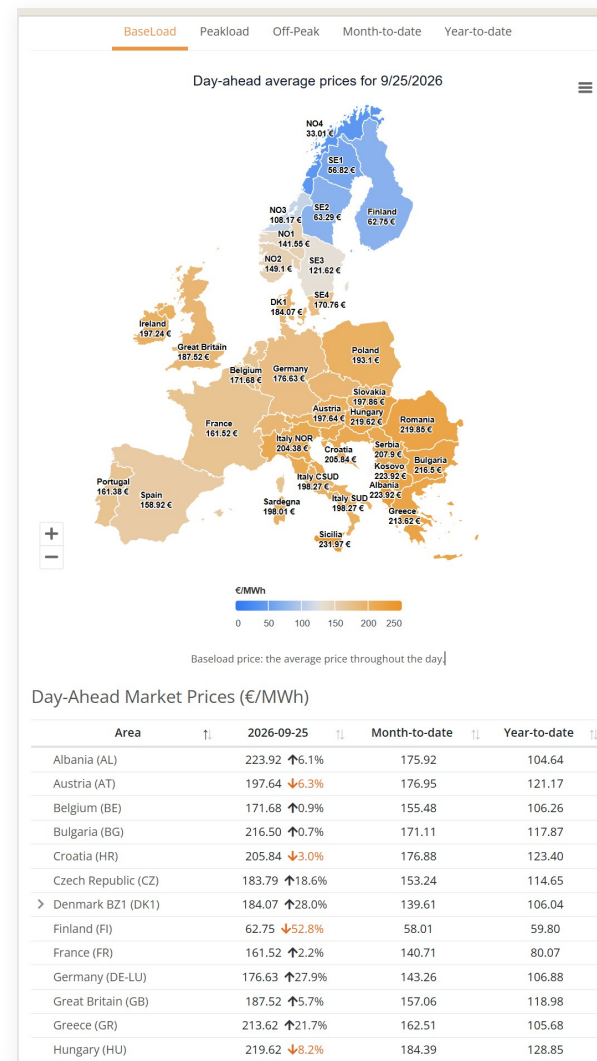

FOLLOW UP ON CURRENT PRICES

A single page with everything you need every morning:
